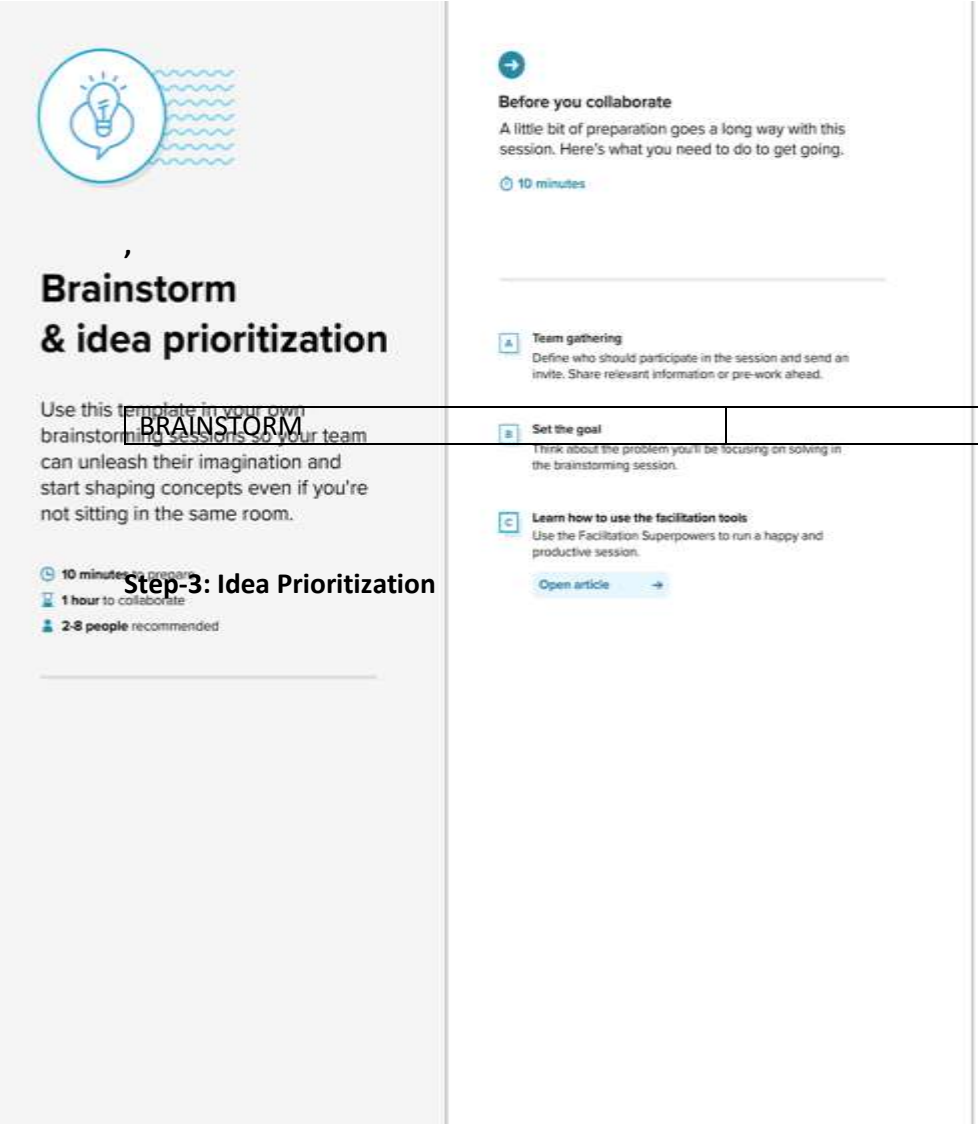
## Step-1: Team Gathering, Collaboration and Select the Problem Statement

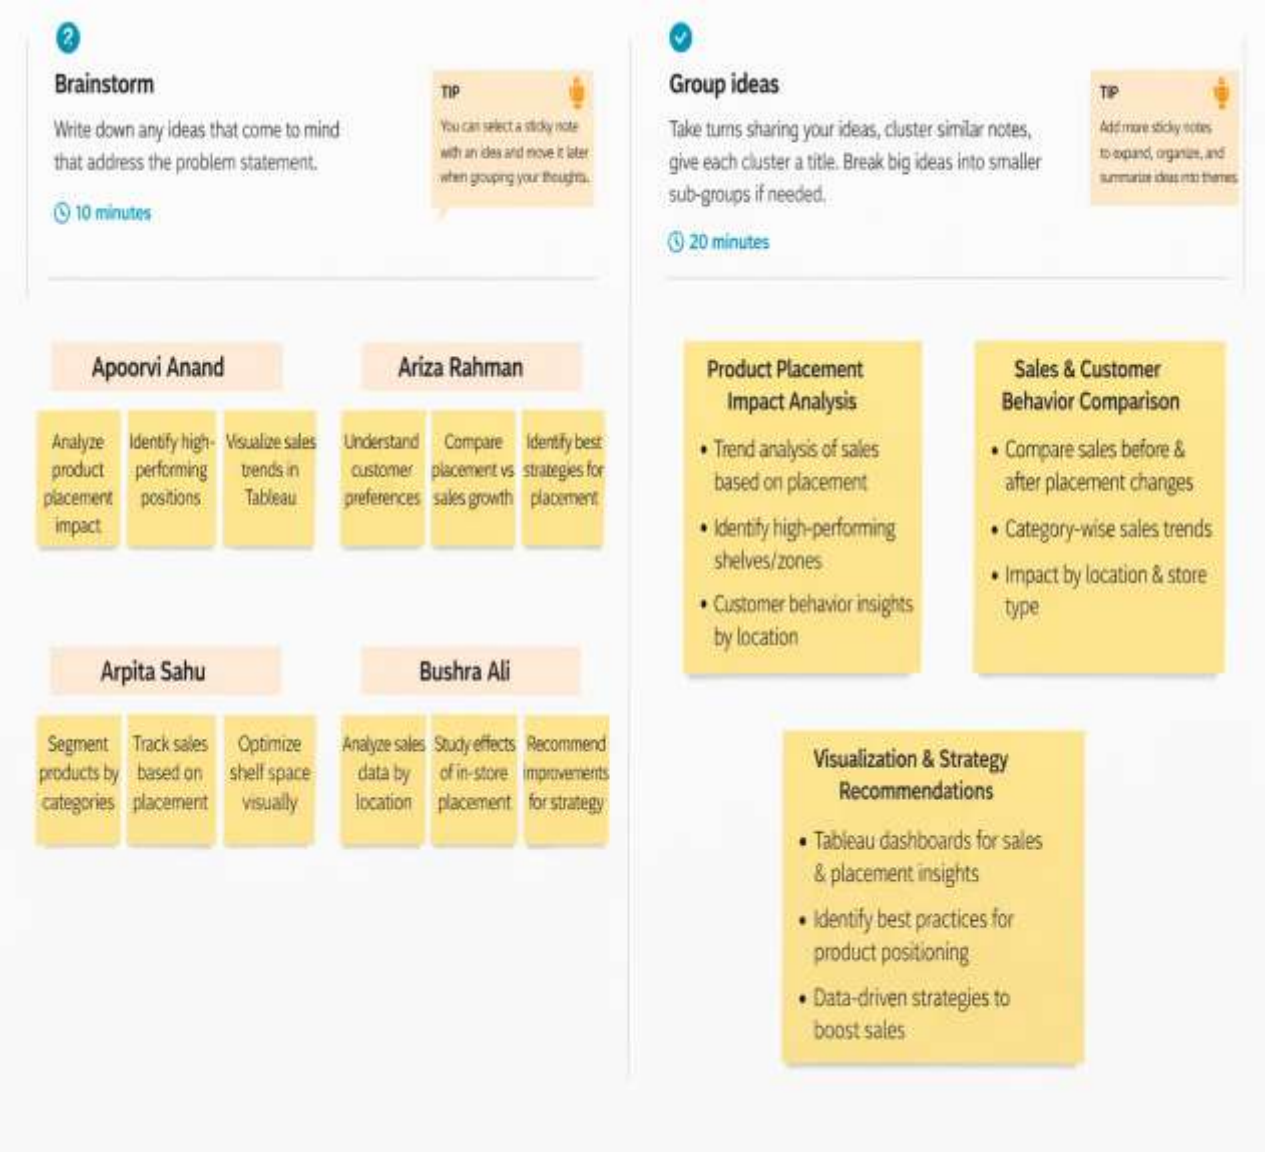


BRAINSTORM

The team members (**Apoorvi Anand, Ariza Rahman, Arpita Sahu, Bushra Ali**) conducted a collaborative discussion to review the empathy map and defined the problem statement. After analyzing the challenges faced by retail managers and marketing teams in understanding the impact of product positioning on sales and consumer behavior, the team identified the key problem of **analyzing product placement strategies and their influence on sales performance.**

## Step-3: Idea Prioritization

**STEP 2- BRAINSTORM , IDEA LISTING , GROUPING**



**STEP 3- IDEA PRIORITIZATION**

## Prioritize

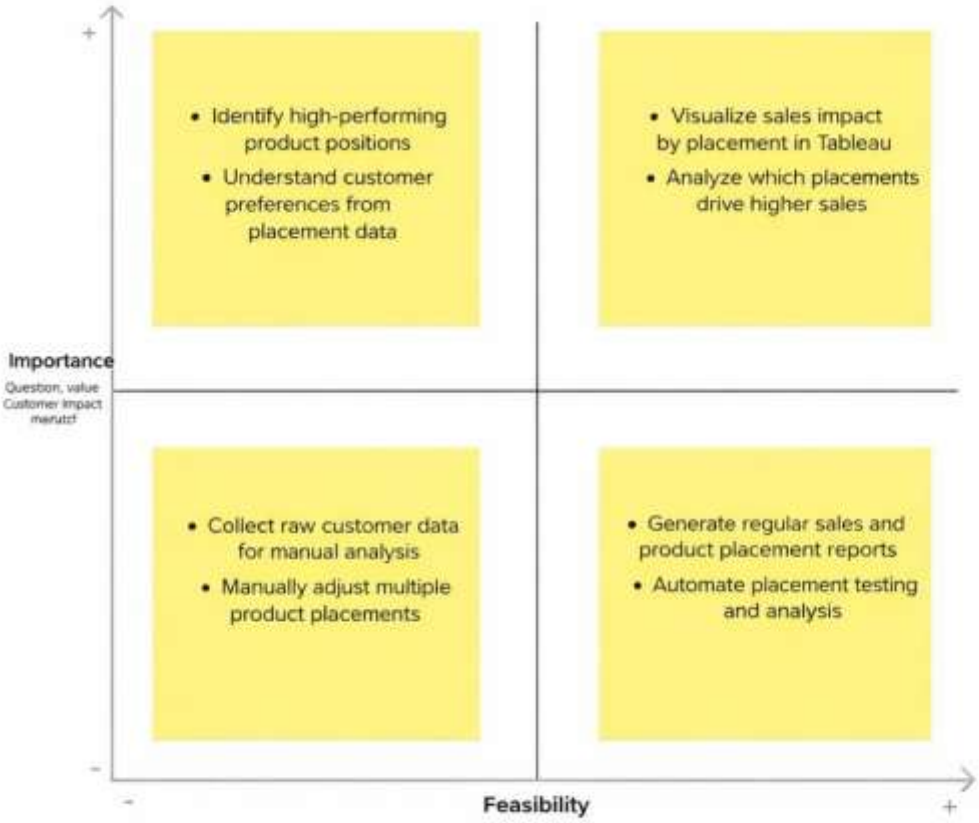
Your team should all be on the same page about what's important regarding product placement and sales optimization. Use this impact/Efort grid to determine which ideas are important and which are feasible.

20-30 minutes

**TIP**

Re-prioritize once you have new data or insights.

- Trackable items can be moved. Use different-catall labers-de initials to indicate everyone's biggest priorities.
- Fill out the top two quardants with issues that will have a big impact or are easy to execute.



Required time/cost to execute, data access, and Tableaur skills, effort needed
